# Hilltip

HTRACK™

Tracking your spreaders, sprayers and snowplows

The new Hilltip HTrack™ system is compatible with all models of IceStriker™, SprayStriker™ and SnowStriker™. With the new tracking software you can track and manage all of your spreading devices and snowplows online on your computer, tablet or smartphone.

FEATURES

✔ Easy-to-use interface

✔ Track your devices in real-time or between specific time intervals:
- Show route on map
- Show speed, GPS location, material used etc.

✔ Show one or multiple units

✔ Download session reports and performance details

Mikes truck

12:40:21 - 01.04.2017
Spreading salt
Amount: 14 g/m^2
Spreading width: 3m
Vehicle speed: 16 km/h

HOW TO USE HTRACK™

1. Connect a Hilltip HTrack™ USB modem to the controller.

2. Log on to your HTrack™ account on your computer, tablet or smartphone.

3. Choose vehicle(s) and start tracking!

BENEFITS

The Hilltip HTrack™ software will help you improve your business by:

✔ Allowing you to analyze more profitable routes.

✔ Calculate the volume of spreading material used.

✔ Prove to your client that you were on site, backing it up with a GPS timestamp of where and when, and verification of how much material you were spreading.
