

SNOWSTRIKER™ SML

Our new member of the SnowStriker™ family is the SML plow with lifting device, designed for trucks and municipal machines. As the widest plow in our product range, and with the same outstanding characteristics as the other SnowStrikers™, it will take productivity to a whole new level when fighting the winter.

MADE IN FINLAND

260-300 cm • Lifting device • For light trucks and municipal machines • Trip edge in three segments

STANDARD FUNCTIONS

- ✓ Cutting edge in three segments with trip springs protects the plow and vehicle when striking curbs or other obstacles. The trip springs on one side of the cutting edge will be compressed when hitting an obstacle, while the other segments stay on the ground.
- ✓ Adjustable attacking angle.
- ✓ Equipped with a paralell lifting device.
- ✓ Curved blade for optimal snow-rolling effect.
- ✓ LED edge-markers.
- ✓ Blade tilts and oscillates while plowing on uneven ground for a cleaner scrape (5°)
- ✓ Self-diagnostic in-cabin joystick (only on electro hydraulic model)
- ✓ Direct cylinder lift
- ✓ Direct truck hydraulic

PLOW JOYSTICK - Easy-to-use in-cabin joystick for simple operation of the snowplow. (electro hydraulic only)

CUTTING EDGE with trip springs - protects your plow and vehicle when striking obstacles.

PARALELL LIFTING DEVICE for trucks and machines with DIN-plate

OPTIONAL FEATURES

- + Color-options: orange snowplow
- + Light tower with halogen headlights.
- + Electro hydraulic 24V
- + Rounded snow deflector in steel (increases straight-blade height with 5 cm)
